

Islamise is a fast growing Islamic site with more than **seven hundred visitors** a day, this figure is increasing every week.

To raise fund for the costs of running this site (file hosting, bandwith & hosting charges, developer etc) we are offering four banner advertising spots within prominent locations throughout the website. These five spots will be on one location on the page and will rotate randomly between the five ads, you can see this in action below by refreshing the page. By advertising with us you will be helping us provide more Islamic material available for the benefit of Muslims all over the world.

Advertising with us is more beneficial than other sites as users stay on each page for much longer when listening to [Nasheeds](#) , [Quran recitations](#) or [Islamic lectures](#) .

Whether you have an existing site, or a completely new business, it will be advantageous to advertise with us at a fraction of the cost of other forms of advertising. **Rememberyour advertisement link is working, 24 hours of every day, throughout the year.**

Advertising with use will also help with your search engine rankings as every link improves your websites rankings, especially in Google. We aim to provide

five hundred

links to your site with this banner advertising plan.
