

## **Fragile World Nasheed Lyrics by Sami Yusuf**

I know that I'm not alone  
What I've seen, has been seen before  
But it hurts just like a thorn  
A pain I've never felt before  
My heart says: "Just speak the truth"  
But my mind says: "Don't be a fool"  
Need to get something off my mind  
Don't let this silence be misunderstood  
I don't know where my heart will take me  
But I know your light will protect me  
From this fragile world  
I don't know where I'm destined to be  
Rich or poor, famous, loved or lonely  
But I know, without your light I'll never cope  
In this fragile world

Did you think you can silence me?  
With your lies, games and deceit?  
You can continue robbing me  
But you won't rob my dignity  
I know that life is just a game  
An illusion that will fade  
Cheat and lie, have it your way  
But you can't cheat death, no way

I don't know where my heart will take me  
But I know your light will protect me  
From this fragile world  
I don't know where I'm destined to be  
Rich or poor, famous, loved or lonely  
But I know, without your light, I'll never cope  
In this fragile world
