

Give The Young A Chance Nasheed Lyrics

Ours the future hold close
For a time will come
Deep in your heart there's a river that flows
All the way to Kingdom come
Through the sandstorms where the high wind blows
A desert road does bloom
Please help me...

Give the young a chance
Lead them in the dance
My people
Give the young a chance
To change their circumstance
And so... And so... It's written:
As the moon shall turn the tides
And as the stars shall light your ride
Don't listen to the words of fools
The young I know they are jewels

Deeds I've done what I've become
Treasures I will find
Nourishment I do receive
Can't help but believe
The road is long I shall stay strong
Please hear my song
Help me...

Give the young a chance
Lead them in the dance
My brothers
Give the young a chance
Lead them in the dance
My sisters
Give the young a chance
To change their circumstance
And so... And so... It's written:
As the moon shall turn the tides
And as the stars shall light your ride
Don't listen to the words of fools
The young I know they are jewels

{loadposition bannersmiddle}

Take me to gardens where
Birds will sing lullabies
Find me in the shade of trees
Through gentle breeze
Sweet scents filled the air...

Give the young a chance
Lead them in the dance
My people
Give the young a chance
To change their circumstance
And so... And so... It's written:
As the moon shall turn the tides
And as the stars shall light your ride
Don't listen to the words of fools
The young I know they are jewels
