

Make Me Strong Nasheed Lyrics

I know I'm waiting
Waiting for something
Something to happen to me
But this waiting comes with
Trials and challenges
Nothing in life is free
I wish that somehow
You'd tell me out aloud
That on that day I'll be ok
But we'll never know cause
That's not the way it works
Help me find my way

My Lord show me right from wrong
Give me light make me strong
I know the road is long
Make me strong
Sometimes it just gets too much
I feel that I've lost touch
I know the road is long
Make me strong

{loadposition bannersmiddle}

I know I'm waiting
Yearning for something
Something known only to me
This waiting comes with
Trials and challenges
Life is one mystery
I wish that somehow
You'd tell me out aloud
That on that day you'll forgive me
But we'll never know cause
That's not the way it works
I beg for your mercy

My Lord show me right from wrong

Give me light make me strong
I know the road is long
Make me strong
Sometimes it just gets too much
I feel that I've lost touch
I know the road is long
Make me strong
